What do you see as being the greatest landscape opportunity you have with your property?

What do you see as being the biggest hurdle your property has?

What part of landscaping your home are you most excited about?

What is your biggest personal concern about having your landscaping installed?

Overall Design

When considering your landscape, which design style do you prefer? Circle your preferences.

Contemporary or Traditional
Natural Setting or Formal Setting
Curvy, Free Flowing Shapes or Geometric & Balanced Shapes

Do you have any special outdoor “items” of interest that you would like to have included in your design? Check the following landscaping features that you would like to consider having in your design:

Do you have a color scheme preference or personal favorites when it comes to plant species?

Notes:

Outdoor Living Areas

Describe the types of sitting areas you would like to enjoy. Do you want an area for sun bathing, a nice shaded patio area for eating, or both? Shaded areas can be created with natural elements such as trees, gazebos, or pergolas. You may also want to consider the type of seating you would like. You can use furniture or you can have seating built into the areas with natural stone benches, built-in deck seating and other creative built-in options.

Lighting

What types of outdoor landscape lighting have you considered for your project? There are benefits in safety and security as well as enhancing the beauty of your landscape at night.

Maintenance

Do you have a need or desire for a larger lawn area? Do you prefer to keep your lawn smaller to limit mowing?

Do you like to have large planting areas or do you prefer to limit the amount of area that needs to be mulched and maintained for weeds?

Do you prefer mulch or stone as a groundcover around your plants?

If you are considering underground sprinkling for your lawn, do you intend to include irrigation for your plants as well or do you intend to water these manually? If you do intend to include them in your irrigation system, we can discuss the benefits of both spray irrigation and drip irrigation.

Safety, Security and Privacy

Do you need to enclose a certain portion of the property for children or pets?

Do you have pets? Do they have any needs that should be considered in the overall design?

Is it important to plan for handicap accessibility?

What privacy concerns do you have for your property?
